The Herald's St. Petersburg special says :-To arrive at the mouth of the Lens, the boats of the Home Government and India will accept duty | the shipwrecked Jeannette must have passed between New Siberia and the Island of Fadiwskai, which is inhabited only during the Summer by Nomads, who arrive at the close of the Winter to Shanghai. Is it the same in Shanghai? in sledges drawn by dogs. Further on in their make it payable in Shanghai. - Shanghai Mercury | bovoi. The distance is about 500 miles from the locality of the shipwreck to the mouth of the Lens. These islands are situated in the most dreary and desolate part of the Coast of Northern Siberia. The whole Coast was last visited and described by Lieut. Pietre Angon in 1823; that these vast regions, coonpains a distance of hundreds of miles along the coast, were explored in 1735 and 1736 by Lieutenant Proutschischeff and at their farthest extremities by Lieutenant Dimtire Lapless in 1739. The place where boat number 3 landed is situated between the graves of Lieutenant Lussinius, who perished in 1735 with thirty-five of his admpanions, and that of Lieutenant Proutschischeff and his wife, who perished in 1736. From this point to Yakutsk of the foundered steamship Koning der Neder- the distance is more than a thousand miles, landen. The Surabaya Courant states that the through a desert country, completely destitute of population.

NEW POLAR EXPEDITION. NEW YORK, January 3rd. The Herald's St. Petersburg special says :-The Russian expedition to the mouth of the Lens River, organized by the Imperial Society of Geography, which left St. Petersburg on the 28th of December, will pass a year on the coasts to carry on trade, cultivation of waste land, min- of the frozen ocean. In sending this expedition, the Society fulfils an obligation contracted toward the International Polar Commission. The following States will take part in the enterprise: Austria, one station at Jan Mayen Island; England, one station at Fort Simpson; Germany, two stations-one on the Gulf of Georgia, the by the Achinese at the opining of a mosque built other at a place not yet decided upon in the region of the North Pole; Denmark, one station on the western Coast of Greenland: Norway, one station at Altengaard, in the Province Achinese were efterwards treated to a grand of Finmark; Russia, one station at the mouth of the Leng; the United States, two stations one at Point Barrow, on the east of iver was in flood, the neighbour of the Kraten Behring Straits, the other at Lady Franklin Bay, Greenland-the latter being already in queration: France, one station at Apitichern. Emirne, on leaving Batavia reads for Singapore, There are nine other stations in the Arctic regot aground on Neptunus shoal at the entrance gions, and two in the Anterotic regions. There to the readstead at that port. She became so is every reason to believe that there will be firmly fixed therein that, although considerably one, or even two additional Arcitic statious. lightened of cargo, she could not be floated off These may swell the list of persons engaged to until the 28th December, when she was drawn over 200, all taking active part in this enterfrom the shoal by the united efforts of five prise, which will cost, altogether, upward of a steam boats appertaining to the Batavia herbour million roubles. If it be considered that besides works flotilla. On being docked afterwards at all this magnetic observation in more southern regions will be immensely stimulated, for importance and costliness and enterprise will be that the experts had no hesitation to furnish the fully appreciated. One Russian expedition will undertake the heaviest part of the work. It will have to traverse about 6,530 miles, and establish itself in an exceptionally cold region at the mouth of the Lens. The other to the place where the lowest temperature in the world has been noted. In January the average Temperature is 40 ° below zero, the point at which from Indian files received yesterday per steamer mercury freezes. The gratest precautions will. therefore, have to be taken to prevent the members of the expedition from losing their lives. It may be presumed that fortunately the crews of the Jeannetts boats, who were all living at the and of October, according to the rows of them received a fortnight ago at Irkutsk, will have been transported ere this to a more hospitable climate, by the people with whom they had taken

SCIENTIFIC EXPLORATIONS IN NEW MEXICO. NEW YORK, January lat. The Tribune says: - The discovery of adeserted. past season. This is by far the most important find yet made among the ancient baunts of the cliff dwellers. Some of the houses contain four or five dwellings, one on top of the other, and on the plateau above the cliff were found many ruins of temples of worship, built or well out square-stones. A comparison of the collections of pottery and implements gathered in the chiff houses by the exploring party, with those obtained in the Pueblovillages, strengthens the theory that the Pachlo Indians are the degenerate descendants of the once powerful race that built the ruined cities of the plains, and then retreating before some more warlike race mrved out these singular dwellings on the sheer walls of dizzy precipioes, and found in them, it may be for The P. M. steamer City of Tokio, Captain conturies, both fortresses and homes. Perhaps the hieroglyphic inscriptions seen by Mr. Maury, with the American mail of the 7th ult., Stevenson will one day be deciphered and be arrived here yesterday morning. The following | found to contain the tragic history of the telegrams are culled from our San Francisco wasting away, by wars and famines, of this illfated people, who, like the coneys of the Bile made the rocks their refuge.
